

Washing advice...

- Don't wash your hair until 48 hours after you have them fitted
- Only use extension-safe products
- Brush your hair before washing to stop matting
- Do not scrub your hair or scalp, use gentle motions
- Only use conditioner on mid-lengths and ends
- NEVER go to sleep with wet extensions

Take care of them...

- Only use a soft bristle brush and wide tooth comb for tangles
- Gently brush downward holding the tape or bead
- Plait your hair before bed to reduce knots
- Avoid tipping head forward to dry
- Use a hair serum / oil and heat protectant products

Please note...
Your hair extensions may feel strange for 24 hours and you may have a headache, this should pass, if it doesn't contact us.

Our advice...

If you look after your extensions you will not need to repurchase a new set for a good length of time!
